

# BR-1800 BURNISHING RESTORER

## Description

Ohm-Shield™ Burnishing Restorer BR-1800 renews static dissipative properties and glossy appearance of Ohm-Shield™ floor finish. Using Burnishing Restorer will extend the static decay properties, surface resistance characteristics and durability of the floor.

The re-coat cycle is extended which reduces the cost of maintaining floors.

Ohm-Shield™ BR-1800 can be used with standard burnishing machines for easy application.

## Features

- Environmentally friendly
- Reduces maintenance cost
- Used at full strength
- Renews the unique protective properties and gloss of Ohm-Shield™ floor finish
- Extends re-coat cycle
- Used with standard burnishing machines
- Coverage: 2,000 sq. ft / gallon

## Specifications

<b>Color</b>	Translucent
<b>pH</b>	7-8
<b>Odor</b>	Mild to pleasant
<b>Water Solubility</b>	100%
<b>Hazardous</b>	None
<b>Electrical Resistance per EOS/ESD S4.1</b>	$10^6$ - $10^9$ ohms
<b>Static Decay Rate</b>	.01 seconds per FTMS 101° C

## For Serious Protection

### Ohm-Shield™ AF-5500 Floor Finish

- High abrasion resistance
- Low VOC
- Static dissipative
- High gloss
- Non flaking
- Low cost
- Low tribogeneration
- UL listed
- No formaldehyde or phthalates
- Water based
- Surface resistance (RTT):  $10^7$ - $10^9$  ohms @100 volts
